PETITION TO CORRECT THE FILING DATE

Dear Sir or Madam:

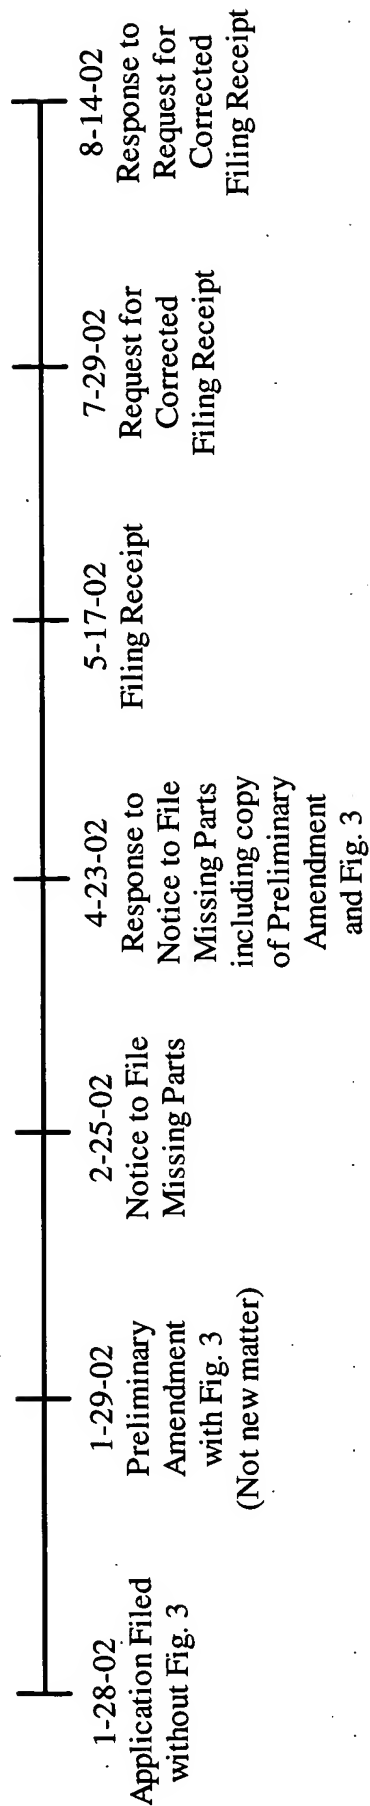

Applicants hereby petition to correct the filing date for the above-identified application to read -- **January 28, 2002** --. Said application was initially accorded a filing date January 28, 2002 as indicated on the Notice to File Missing Parts of Nonprovisional application dated February 25, 2002. Applicants filed the application on January 28, 2002, along with a Preliminary Amendment on January 29, 2002 -- in order to claim the benefit of priority of a United Kingdom application filed January 31, 2001.

Timeline

The following timeline is provided as an overview of the Statement of Facts and supporting documents therewith.

Statement of Facts

(A) On January 28, 2002, Applicants filed an application containing 1 page of Abstract, 37 pages of specification and claims, an Information Disclosure Statement, and 11 sheets of drawings, along with an unexecuted Declaration. A date stamped copy of this filing is attached as Exhibit A.

(B) The next day, on January 29, 2002, Applicants filed a preliminary amendment enclosing omitted Figure 3 which “illustrates schematically components of an application of said sending computer entity, for formatting a document file for sending over said network, and for storing a document history data;” as found at page 13, lines 4-6. Applicants pointed out that no new matter was added. See also page 16, lines 18-30 of the originally filed specification for a detailed description of the schematic components. See Exhibit B.

(C) Applicants received a Notice to File Missing Parts of Nonprovisional Application mailed February 25, 2002 (where the filing date was accorded as of January 28, 2002) indicating that the oath or declaration was unsigned, along with a statement that “the following item(s) appear to have been omitted from the application: Figure 3 described in the specification.”

Applicants direct the Petitions Branch to Option III (for January 28, 2002 filing date) found at the bottom of the Notice to File Missing Parts.

- III. The failure to file a petition (and petition fee) under the above options (I) or (II) within TWO MONTHS of the date of this Notice (37 CFR 1.181(f)) will be treated as a constructive acceptance by the applicant of the application as deposited in the USPTO. **THIS TWO MONTH PERIOD IS NOT EXTENDABLE UNDER 37 CFR 1.136(a) or (b).** In the absence of a timely filed petition in reply to this Notice, the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original

application papers (i.e., the original disclosure of the invention) will include only those application papers present in the USPTO on the date of deposit.

(D) On April 23, 2002, Applicants replied to the February 25, 2002 Notice to File Missing Parts by supplying copies of the Preliminary Amendment filed on January 29, 2002 as evidenced by the attached copy of the itemized date-stamped receipt sheet, transmittal letter, Preliminary Amendment, Figure 3 and executed Declaration. See Exhibit D.

(E) A Filing Receipt was mailed May 17, 2002 indicating an accorded filing date of April 23, 2002. (not January 29, 2002). See Exhibit E.

(F) Applicants filed a Request for Corrected Filing Receipt on July 29, 2002 although failed to file a petition therewith as so required. Nevertheless, the USPTO accorded the application the filing date of April 23, 2002. See Exhibit F.

(G) A Response to Request for Corrected Filing Receipt was mailed August 14, 2002 stating "The filing date accorded to the application is the date the application met the filing date requirements of 37 CFR 1.53(b) or (c). See Exhibit G.

Points to be Reviewed

The accorded filing date of April 23, 2002 for the above-identified application is incorrect.

The USPTO is requested to hold that January 28, 2002, the original filing date of application to be accorded the filing date in accordance with Option III of the Notice to File Missing Parts because no petition was filed under the above Options (I) or (II) within two months of the date of this Notice (37C.F.R. 1.81(f)) -- "the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original application

papers (i.e., the original disclosure of the invention) will include only these application papers present in the USPTO on the date of deposit.”

Moreover, in accordance with 37 C.F.R. §1.53(b), the filing date of an application for patent is the date on which “a specification as prescribed by 35 U.S.C. §112 containing a description pursuant to §1.71 and at least one claim pursuant to §1.75, and any drawing required by §1.81(a) are filed in the Patent and Trademark Office.” Section §1.81(a) requires the applicant to furnish a drawing of his or her invention where necessary for the understanding of the subject matter. Fig. 3 is fully supported in the specification and is not a “necessary” drawing under §1.53(b) and §1.81(a) for purposes of according a filing date because the schematic components of an application of said sending computer entity, for formatting a document file for sending over said network, and for storing a document history data were described in detail at page 16, lines 18-30 of the originally filed specification as well as outlined at page 16, lines 4-6. Thus, because Fig. 3 was not new matter as stated so in the preliminary amendment of January 29, 2002, Applicants submit that Fig. 3 is not a necessary drawing under §1.53(b) and §1.81(a) for purposes of according a filing date.

Action Requested

(1) Applicants request that the above-identified application be accorded the filing date of January 28, 2002.

I hereby declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further, that all these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the

United States Code, and that such false willful statements may jeopardize the validity of the application, any patent issuing thereon, or any patent to which this verified statement is directed.

It is respectfully submitted that the petition fee accompanying herewith should be refunded -- a check in the amount of \$130.00 is enclosed to cover the Petition fee. The director is hereby authorized to charge any additional fees which may be required, or credit any overpayments to our Deposit Account No. 50-1656.

Respectfully submitted,

Referring to Fig. 2 herein, there is illustrated schematically components of a computer entity adapted to send secure documentation to one or a plurality of secure printing devices.

5 The sending computer entity 200 comprises known components including a processor 201 with associated memory 202; data storage 203, for example a hard disk drive or the like; a user interface 204, including a visual display unit, keyboard, and pointing device eg mouse or trackball device; a plurality of input/output ports 205; a modem and local area network connection 206; an
10 operating system 207 having a known file system 208; and a secure document sending application, 209 according to a specific implementation of the present invention. The secure document sending application 209 presents a user interface in the form of a visual display on the video monitor, by which a user can select documents from the file system of the operating system, encrypt those
15 documents, and send them to designated secure destination devices, which are pre-registered with the sending computer entity.

Referring to Fig. 3 herein, there is illustrated schematically modules of the secure document send application 209. The application comprises a document
20 selection and retrieval module 300, capable of interfacing with the file system of the operating system for the retrieval and selection of individual files, typically of text and/or image data; an encryption algorithm 301 of prior art type, for example the known DES, 3DES, RC5, CAST, IDEA, or Blowfish algorithms; optionally, a one-time pad module, containing a set of one-time pad encryption keys; a
25 recipient address list 303 listing electronic addresses of a plurality of pre-registered receiving devices, e.g. network attached printers; a visual screen generation module 304 for generating a visual user interface allowing selection, encryption and sending of documents to the recipient devices; and a document history database 305 listing a history of send events of documents detailing which
30 documents have been sent, the destinations and number of copies sent.

NOTICE TO FILE MISSING PARTS OF NONPROVISIONAL APPLICATION

FILED UNDER 37 CFR 1.53(b)

Filing Date Granted

An application number and filing date have been accorded to this application. The item(s) indicated below, however, are missing. Applicant is given **TWO MONTHS** from the date of this Notice within which to file all required items and pay any fees required below to avoid abandonment. Extensions of time may be obtained by filing a petition accompanied by the extension fee under the provisions of 37 CFR 1.136(a).

- The oath or declaration is unsigned.
- To avoid abandonment, a late filing fee or oath or declaration surcharge as set forth in 37 CFR 1.16(l) of \$130 for a non-small entity, must be submitted with the missing items identified in this letter.
- The balance due by applicant is \$ 130.

The following item(s) appear to have been omitted from the application:

- Figure(s) 3 described in the specification.

I. Should applicant contend that the above-noted omitted item(s) was in fact deposited in the U.S. Patent and Trademark Office (USPTO) with the nonprovisional application papers, a copy of this Notice and a petition (and \$130.00 petition fee (37 CFR 1.17(h))) with evidence of such deposit must be filed within **TWO MONTHS** of the date of this Notice. The petition fee will be refunded if it is determined that the item(s) was received by the USPTO.

II. Should applicant desire to supply the omitted item(s) and accept the date that such omitted item(s) was filed in the USPTO as the filing date of the above-identified application, a copy of this Notice, the omitted item(s) (with a supplemental oath or declaration in compliance with 37 CFR 1.63 and 1.64 referring to such items), and a petition under 37 CFR 1.182 (with the \$130.00 petition fee (37 CFR 1.17(h))) requesting the later filing date must be filed within **TWO MONTHS** of the date of this Notice.

III. The failure to file a petition (and petition fee) under the above options (I) or (II) within **TWO MONTHS** of the date of this Notice (37 CFR 1.181(f)) will be treated as a constructive acceptance by the applicant of the application as deposited in the USPTO. **THIS TWO MONTH PERIOD IS NOT EXTENDABLE UNDER 37 CFR 1.136(a) or (b).** In the absence of a timely filed petition in reply to this Notice, the application will maintain a filing date as of the date of deposit of the application papers in the USPTO, and original application papers (i.e., the original disclosure of the invention) will include only those application papers present in the USPTO on the date of

deposit.

- In the event that applicant elects not to take action pursuant to options (I) or (II) above (thereby constructively electing option (III)), amendment of the specification to renumber the pages consecutively and cancel incomplete sentences caused by any omitted page(s), and/or amendment of the specification to cancel all references to any omitted drawing(s), relabel the drawing figures to be numbered consecutively (if necessary), and correct the references in the specification to the drawing figures to correspond with any relabelled drawing figures, is required. Any drawing changes should be accompanied by a copy of the drawing figures showing the proposed changes in red ink. Such amendment and/or correction to the drawing figures, if necessary, should be by way of preliminary amendment submitted prior to the first Office action to avoid delays in the prosecution of the application.
